

Job Title: Residential & Commercial Plumber

Job Type: Full Time

We are looking for an experienced Plumber to efficiently undertake a variety of plumbing tasks ranging from fixing leakages to installing pipes and HVAC systems. A successful plumber must have a thorough knowledge of hydraulic systems. They are patient individuals with a practical mind and manual dexterity, able to work efficiently with great attention to detail. The goal is to install and maintain well-functioning systems that transport water, waste, gases or hot liquids.

Responsibilities:

- Service of drain lines and water supply lines in commercial buildings
- Drain cleaning utilizing drain equipment
- Replacement of water heaters, flush valves, fixtures as needed
- Repair of water heaters, flush valves, fixtures as needed

Skills:

- Proven experience as a plumber
- Solid understanding of water distribution and disposal systems in residential, commercial and industrial buildings
- Working knowledge of heating and ventilation systems as well as appliances
- Ability to handle plumbing tools and equipment (pipe wrenches, pipe cutters, plungers etc.)
- Good communication and interpersonal skills
- Friendly with a great deal of patience
- Good physical condition and strength with the ability to work in awkward spaces
- Diploma from a trade school or successful completion of apprenticeship is preferred
- Valid license to practice profession is a plus!
